Company Overview 公司简介

Newhaven Display is a leading global display company that produces electronic display products for a wide variety of markets and applications. Our products include cutting edge LCD, VFD and OLED technologies.

Newhaven Display 是一家为多元化市场应用制造产品的全球领先显示屏公司。 我司产品包括先进 LCD, VFD 以及 OLED 科技。

About the Job (关于职位)

This position is for a self-starter willing to learn multiple facets of our business within the production sector of our company. The successful candidate will work closely with our production and engineering departments to ensure our quality standards are maintained. 这个职位要求积极学习本公司生产部门内多方业务的能力。当选者需与生产部和工程部紧密合作以确保和维护产品的质量。

- Requires 3 months of on-site training at Newhaven Display, North American Headquarters 需要在 Newhaven Display 的北美总部培训 3 个月。

Responsibilities (职责)

- Perform mechanical & electronic test verification during build processes to confirm end product compliance. 在生产过程中进行机械和电子测试验证以确保最终产品符合规格。
- Monitor manufacturing documentation to ensure proper work instructions are being used to meet NHD standards. 监督检查生产文件以确保生产部门使用正确的作业指导以便达到 NHD 要求的标准。
- Observe production line procedures and inspect outgoing shipments. 观察生产线程序并安排验货。
- Coordinate logistics of new or special projects. 协调新项目或者特殊项目的物流。
- Review product specifications for completeness. 评估产品说明书以确保完整性。
- Interact with engineering and production to solve quality or process problems. 与工程部和生产部合作解决质量或流程问题。
- Interface with customers and suppliers to drive quality improvements. 与客户和供应商合作改进产品质量。
- Accelerate improvements in supplier quality and deliver value to our products. 加速供应商质量改进, 给我们的产品增加价值
- Measure key metrics such as supplier yield, field costs, field defect rates, supplier quality plans and corrective & preventative action closure. 检测关键指标, 例如供应商产量/成本/残品率/供应商质量计划以及纠正和防范措施等。

Requirements (要求)

- Bachelors, Technical Degree or above: 3~5 years relevant work experience or manufacturing related background with knowledge of ISO standards. 本科毕业, 理工科学位以上; 3-5 年在 ISO 质检生产厂的相关工作经验。
- Good English and Chinese communication skills. Working knowledge of electronics theory, and the ability to read English technical material and communicate with global team. 良好的英语和汉语的沟通能力。电子理论的应用知识。能够阅读英文技术材料并能够与全球团队交流合作。
- Must be able to work independently with limited supervision. 必须具有能在较少的监督下独立工作的能力。
- Familiar with Word, Excel. 熟练掌握 Word, Excel.

Experience (经验)

- Prototyping or developing test fixtures or demo equipment is a plus. 有原型设计或开发测试架及演示设备经验的申请者优先。
- Experience with LCD, VFD, LED, TFT or OLED display technologies is a plus. 有 LCD, VFD, LED , TFT 或者 OLED 显示屏技术经验的申请者优先。
- Software programming experience with Assembler or C++ is a plus. 有 Assembler 或 C++ 编程能力的申请者优先。
